SUN Grammar Rules for Readers

1.) Proper nouns have a special indicator mark, a small arrow in the upper left corner of the symbol. Proper nouns are names of people and places. 

2.) Plural words are typed twice. Example: things =  . Exceptions are:

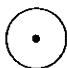

boys:  , sons:   brothers:  , girls:  , daughters:  ,
sisters:  , children:  . Only nouns are made plural in SUN, not verbs.

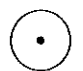

- Ordinal numbers are followed by a singular noun.

Example:   = third day.

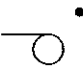

- Cardinal numbers are followed by a plural noun.

Example:    = three days.

- All day:  

- Every day:   

3.) Black dots in the corner of words mean the word is possessive.

 = my

 = yours

 = our

 = theirs

4.) All sentences follow this sentence structure:

- Subject, Verb, Direct Object
- Adjectives before the noun
- Adverbs before the verb

- Possessives before the thing they possess. Example: God's house.:

Exceptions:

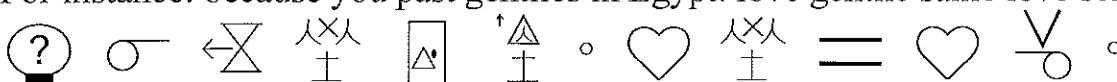

1. If the verse is a command, it begins with a verb. Example: put oil in flour

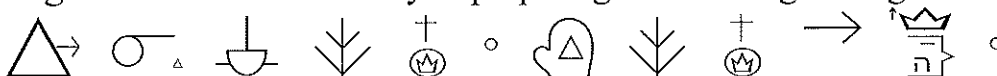

2. Some verses begin with an if clause. The second sentence completes the thought. For instance: if cloud cover tent. people no go in tent.

3. Some verses begin with a because clause. The second sentence completes the thought. For instance: because you past gentiles in Egypt. love gentile same love self.

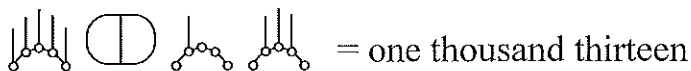

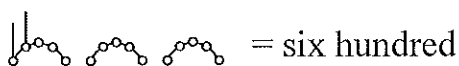

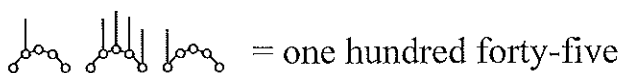

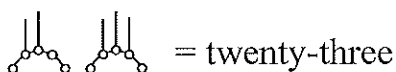

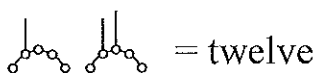

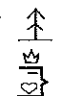

4. Some verses begin with a time reference, beginning with "when", "after", or "day" or "night." For instance: after you prepare grain offering. take grain offering to Yahweh.

5.) All sentences are no more than 7 symbols long.

6.) Numbers greater than ten are written separately.
