# How to find a symbol in the dictionary

This is the SUN dictionary of all the words in the New Testament.

The dictionary is organized by the basic symbols. Extensions are listed under the basic symbols they come from. The Table of Contents lists all the basic symbols and tells you the page number that symbol and its extensions are found.

When you find an extension you do not know, look at all the symbols in the extension. What basic symbol do you recognize? Choose the symbol that you notice first. Find that symbol on the Table of Contents. Notice the page number after the symbol. Turn to that page number. (page numbers are located at bottom of page). This will show you all the extensions that contain that symbol. Search for the extension you are wanting to know about. Read down the columns to find the symbol easier, and see the teaching aids along with the word it symbolizes.

Here are some examples:

Father - ☩ You will be able to find this symbol under the “man” ☩ and “love” ♥ section.

Eternal - ⌘ You will be able to find this symbol under the “all” ⌘ and “time” ⌘ section.

Give - ☞ You will be able to find this symbol under the “hand” ☞ and “love” ♥ section.

Descend - ⤵ You will be able to find this symbol under the “straight” — and “arrows” ↑

Exceptions:

Money - ☺ Circle is not a basic symbol, so look under “king” ☺ and you will find the symbol for money.

Deep - ⤵ The squiggly line is not a basic symbol, so look under “arrows” ↑ and you will find the symbol for deep.

Proper Nouns – Locate the Proper Noun base symbol – God - ☩ , man ☩ , woman ☩ , land ☩ , village ☩ , river ☩ , other – no symbol for this word, as it includes Bible, people groups, festival days, angels, idols, etc.

## SUN Grammar Rules for Readers

1.) Proper nouns have a special indicator mark, a small arrow in the upper left corner of the symbol. Proper nouns are names of people and places. 

2.) Plural words are typed twice. Example: things =  . Exceptions are:

boys:  , sons:   brothers:  , girls:  , daughters:  ,

sisters:  , children:  . Only nouns are made plural in SUN, not verbs.

- Ordinal numbers are followed by a singular noun.

Example:   = third day.

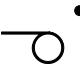

- Cardinal numbers are followed by a plural noun.

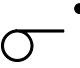

Example:    = three days.

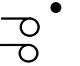

- All day:  

- Every day:   

3.) Black dots  in the corner of words mean the word is possessive.

 = my

 = yours

 = our

 = theirs

4.) All sentences follow this sentence structure:

- Subject, Verb, Direct Object
- Adjectives before the noun
- Adverbs before the verb
- Possessives before the thing they possess. Example: God's house.:  .

Exceptions:

1. If the verse is a command, it begins with a verb. Example: put oil in flour

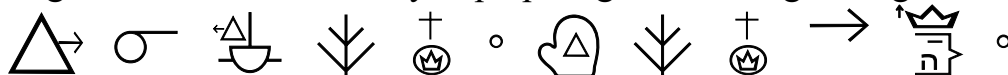

2. Some verses begin with an if clause. The second sentence completes the thought. For instance: if cloud cover tent. people no go in tent.

3. Some verses begin with a because clause. The second sentence completes the thought. For instance: because you past gentiles in Egypt. love gentile same love self.

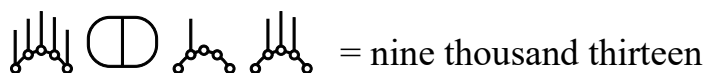

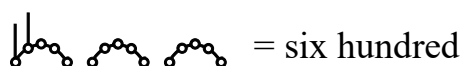

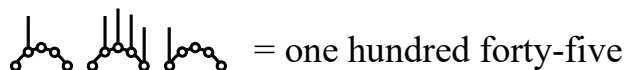

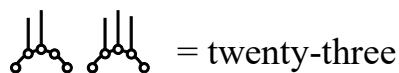

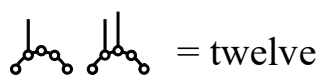

4. Some verses begin with a time reference, beginning with "when" , "after", or "day" or "night." For instance: after you prepare grain offering. take grain offering to Yahweh.

5.) All sentences are no more than 7 symbols long.

6.) Numbers greater than ten are written separately.
